"May all good thoughts come from all directions."

The knowledge of fortune-telling or predicting something, is owned by almost every ethnic group.

In Bali and Java, there is also a way of divining with cards containing wayang pictures, called Wayang Divination or *Tenung Wayang*. This knowledge is called *Aji Penerawangan*. There are different methods of divination, some use trance, or certain ceremonies.

People who have the skill to predict using wayang cards like that are called *Dalang Tenung Wayang*.

The *Tenung wayang* certainly appears along with the emergence of wayang art.

But so far no original book of knowledge of *wayang tarot* has been found. People are just guessing. And finally the wayang divination cards enters the Balinese Mystic or Javanese mystic.

Currently, wayang Divination is considered extinct. Not heard of anyone else doing it. The experts seem to have disappeared under the earth and in the roar of technology.

Why did the tarot masters disappear? Many things must be explored on this matter.

the disappearance of wayang Divination cards experts is related to the difficulty and complexity of this knowledge, as well as the 'sacred' nature of wayang

divination.

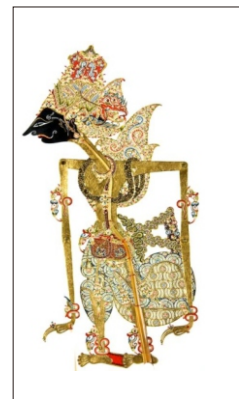

Tarot Puppet traditionally divides the position of the figures according to rank. For example: King; Minister; Priest; Woman; Knight; Giant; Animal. Etc.

The number of cards for the ordinary Tarot is probably around 78, but the Tarot Wayang cards can reach 400 cards or more, even unlimited.

Wayang tarot consists of figures in WAYANG (Shadow Puppet) based on the epic Mahabharata and Ramayana stories. The explanations are clear and easy to understand.

Suggestions from the Wayang Puppet Card Reading will change the direction of your future for the better.

The goal is to read fate, and answer and find solutions to questions that are difficult to find answers to in the usual way.
